# broad_01 · representative behavior 06

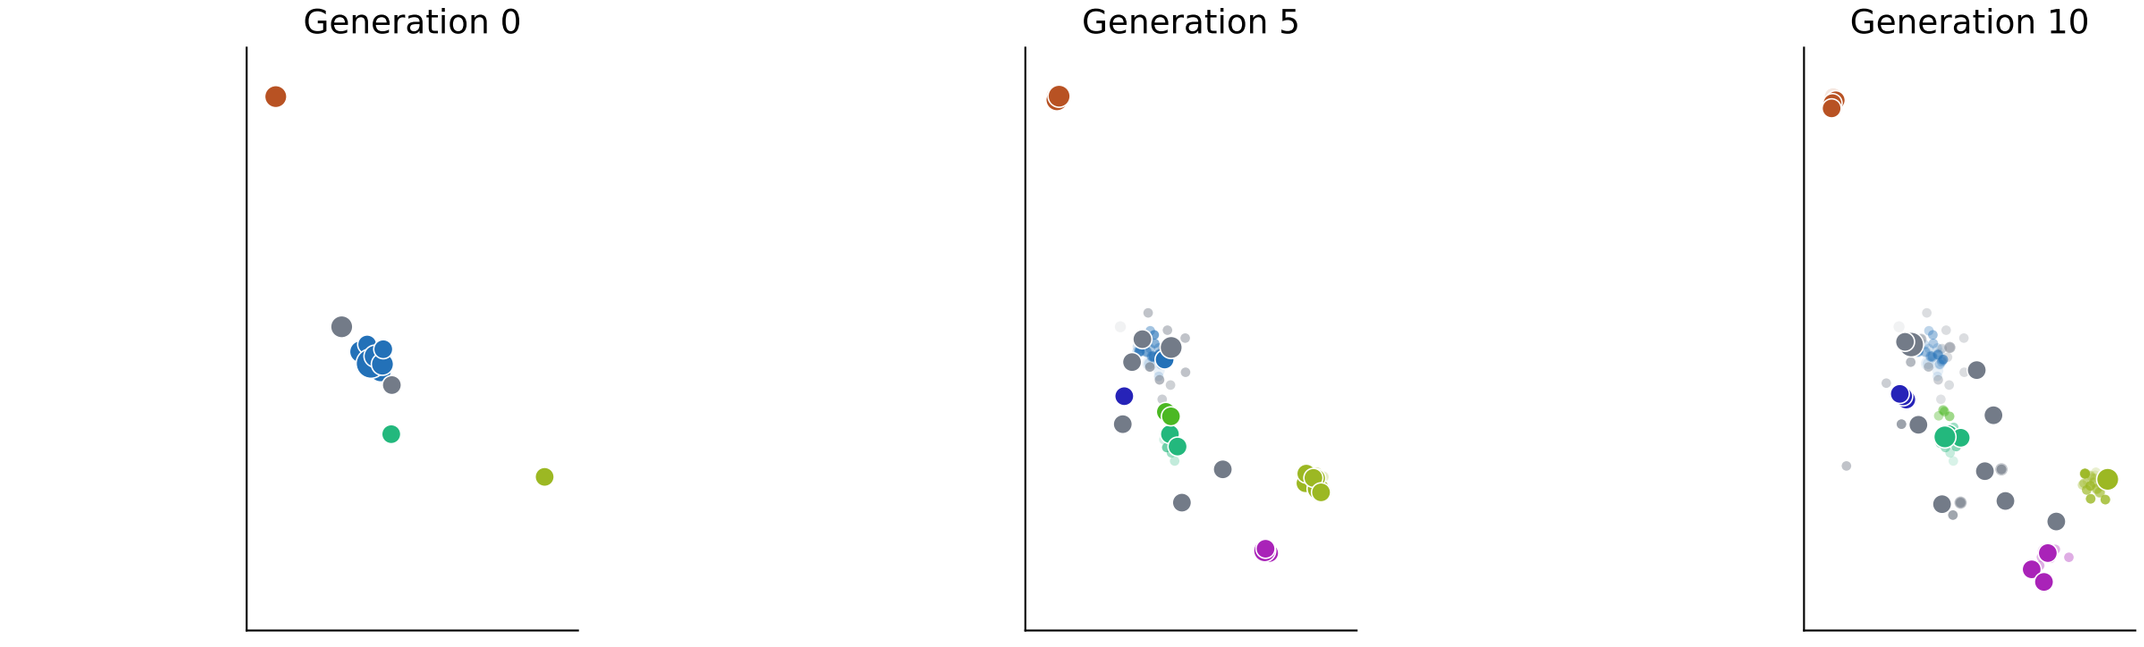

Fixed coordinates across all three panels; previous generations fade. Original-space HDBSCAN colors; projected distances have no cosine units.

# broad_02 · representative behavior 14

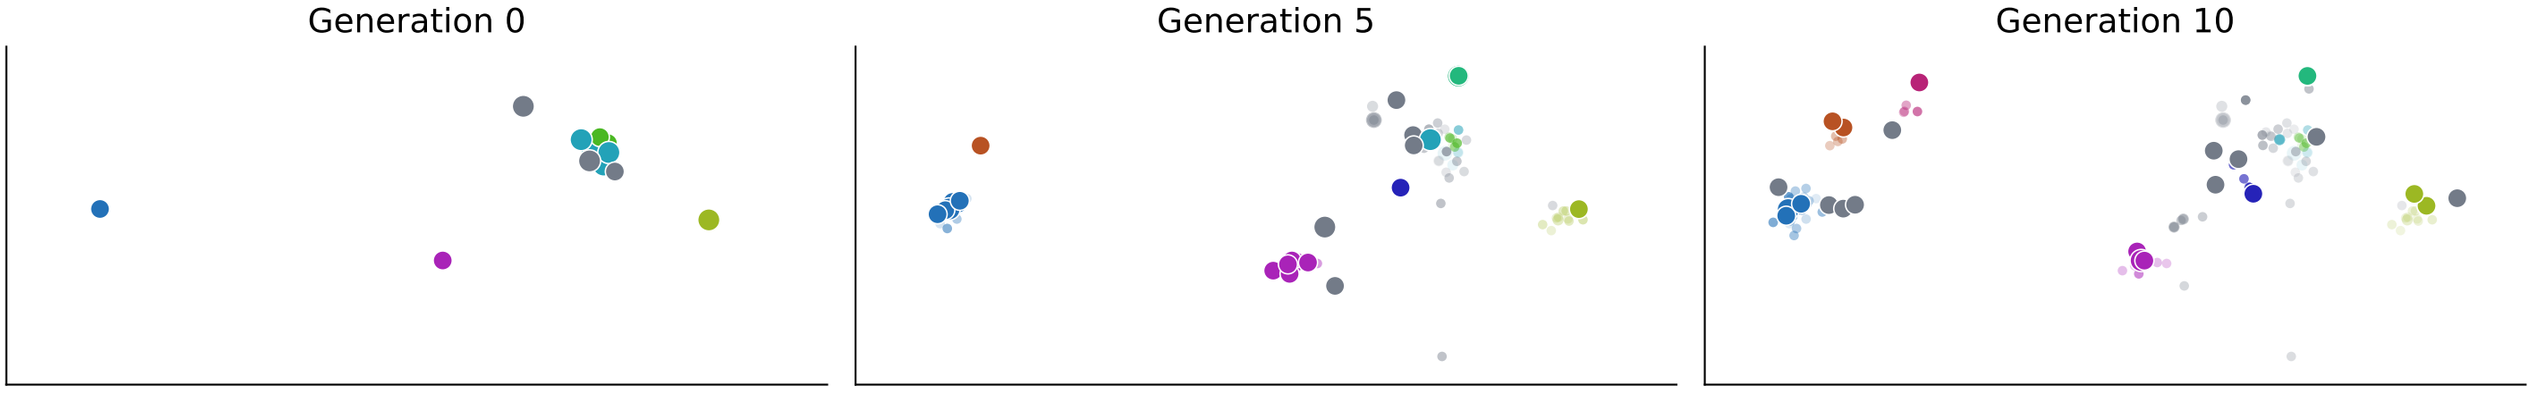

Fixed coordinates across all three panels; previous generations fade. Original-space HDBSCAN colors; projected distances have no cosine units.

# broad_03 · representative behavior 25

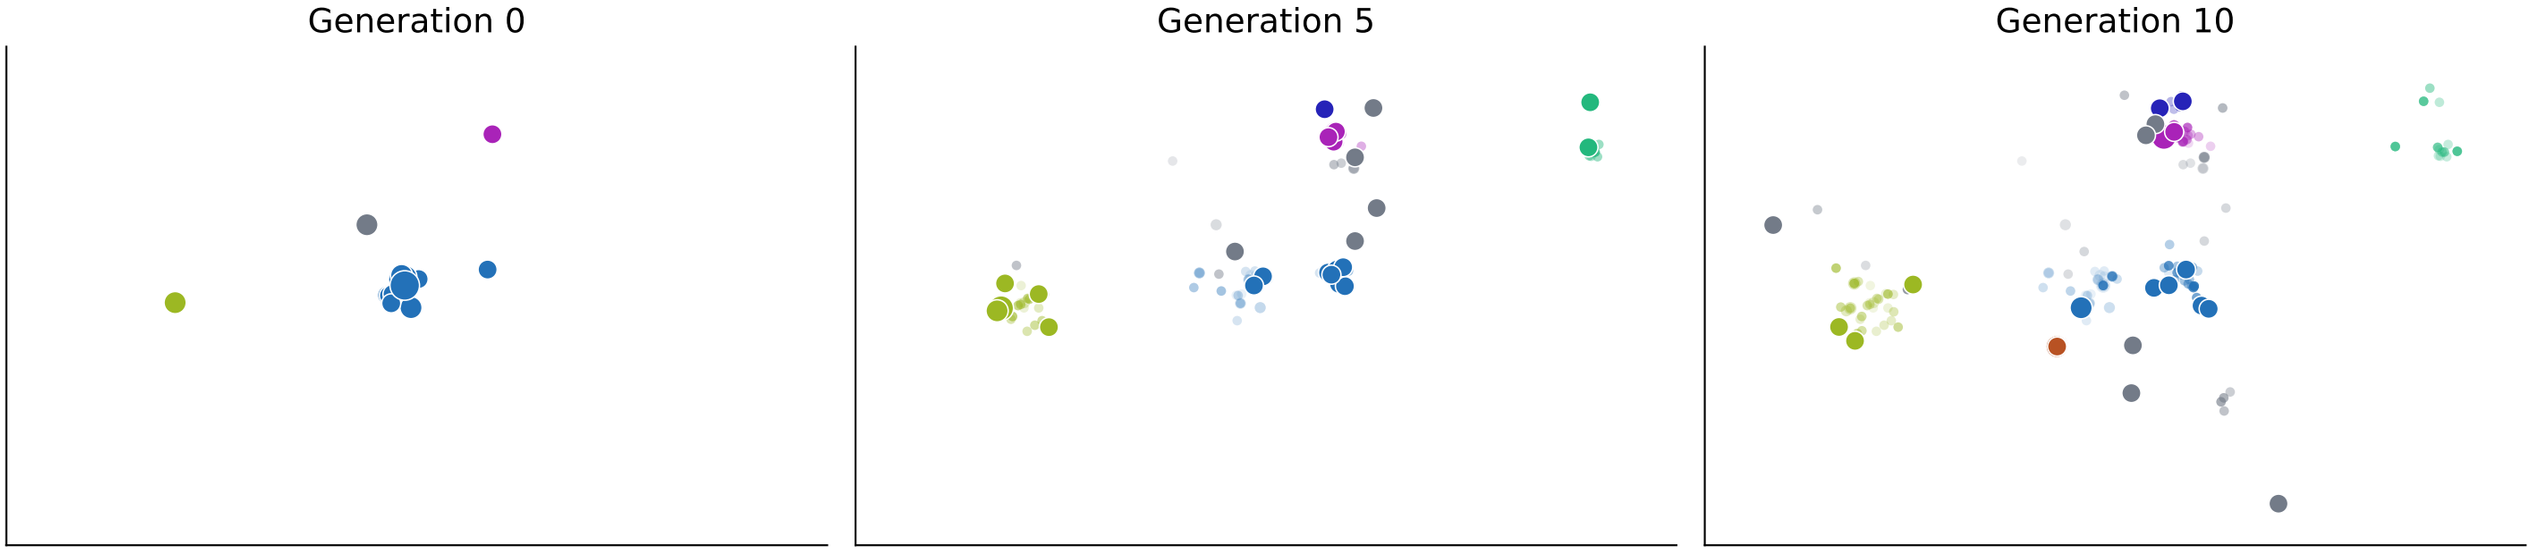

Fixed coordinates across all three panels; previous generations fade. Original-space HDBSCAN colors; projected distances have no cosine units.

# narrow_01 · representative behavior 13

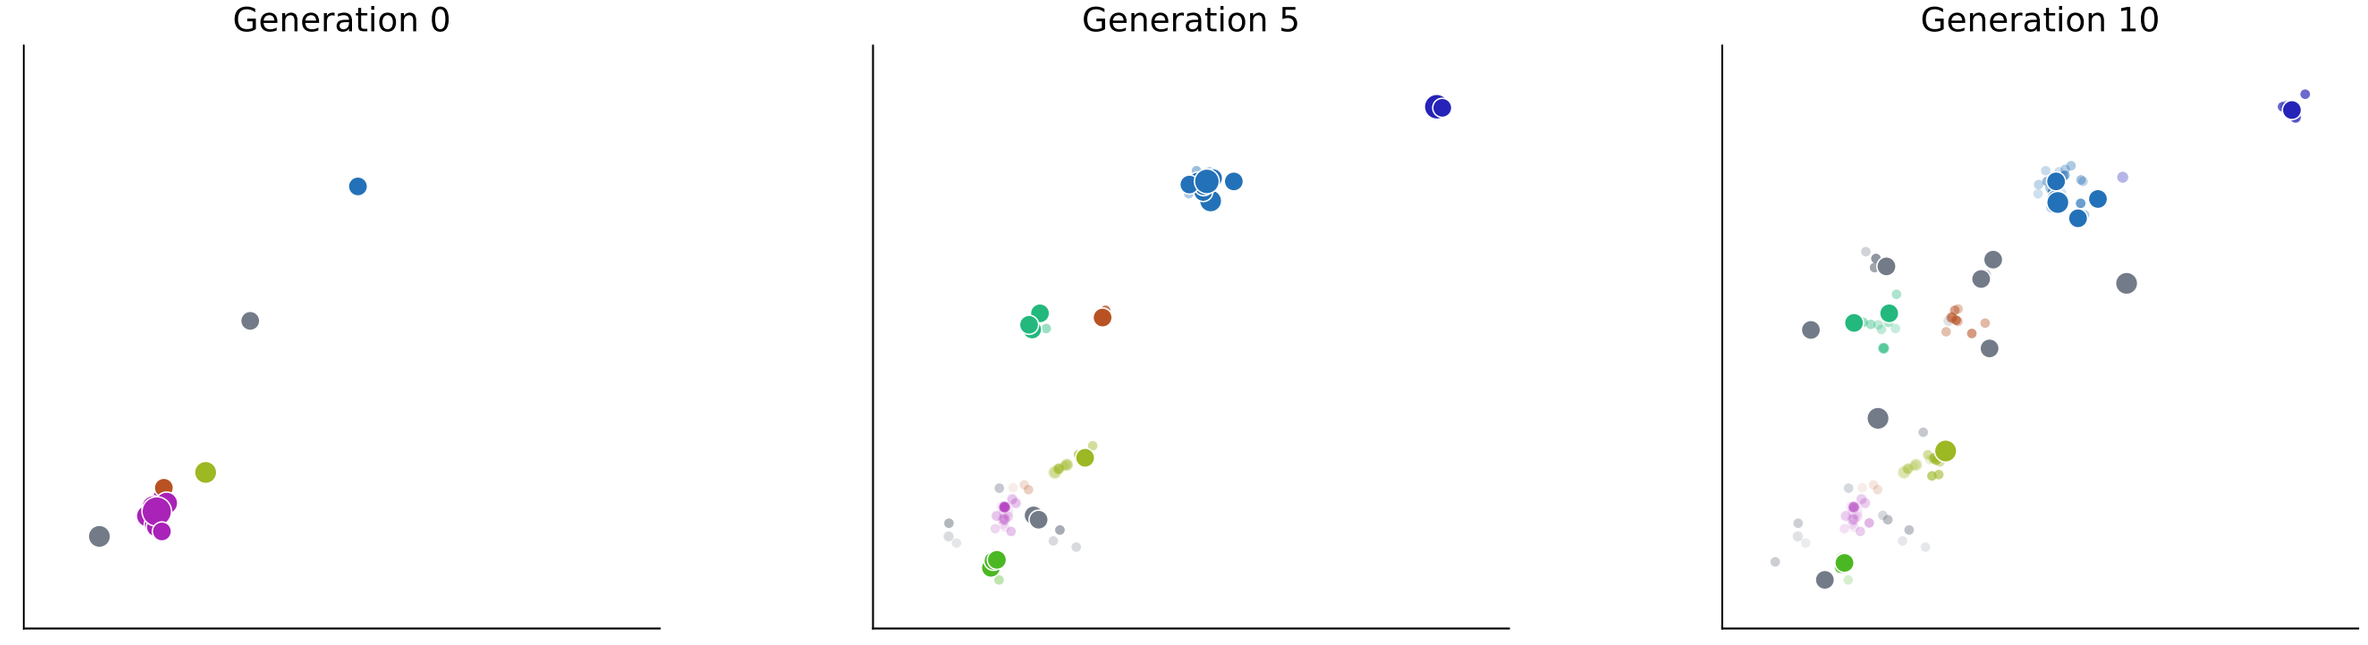

Fixed coordinates across all three panels; previous generations fade. Original-space HDBSCAN colors; projected distances have no cosine units.

# narrow_02 · representative behavior 13

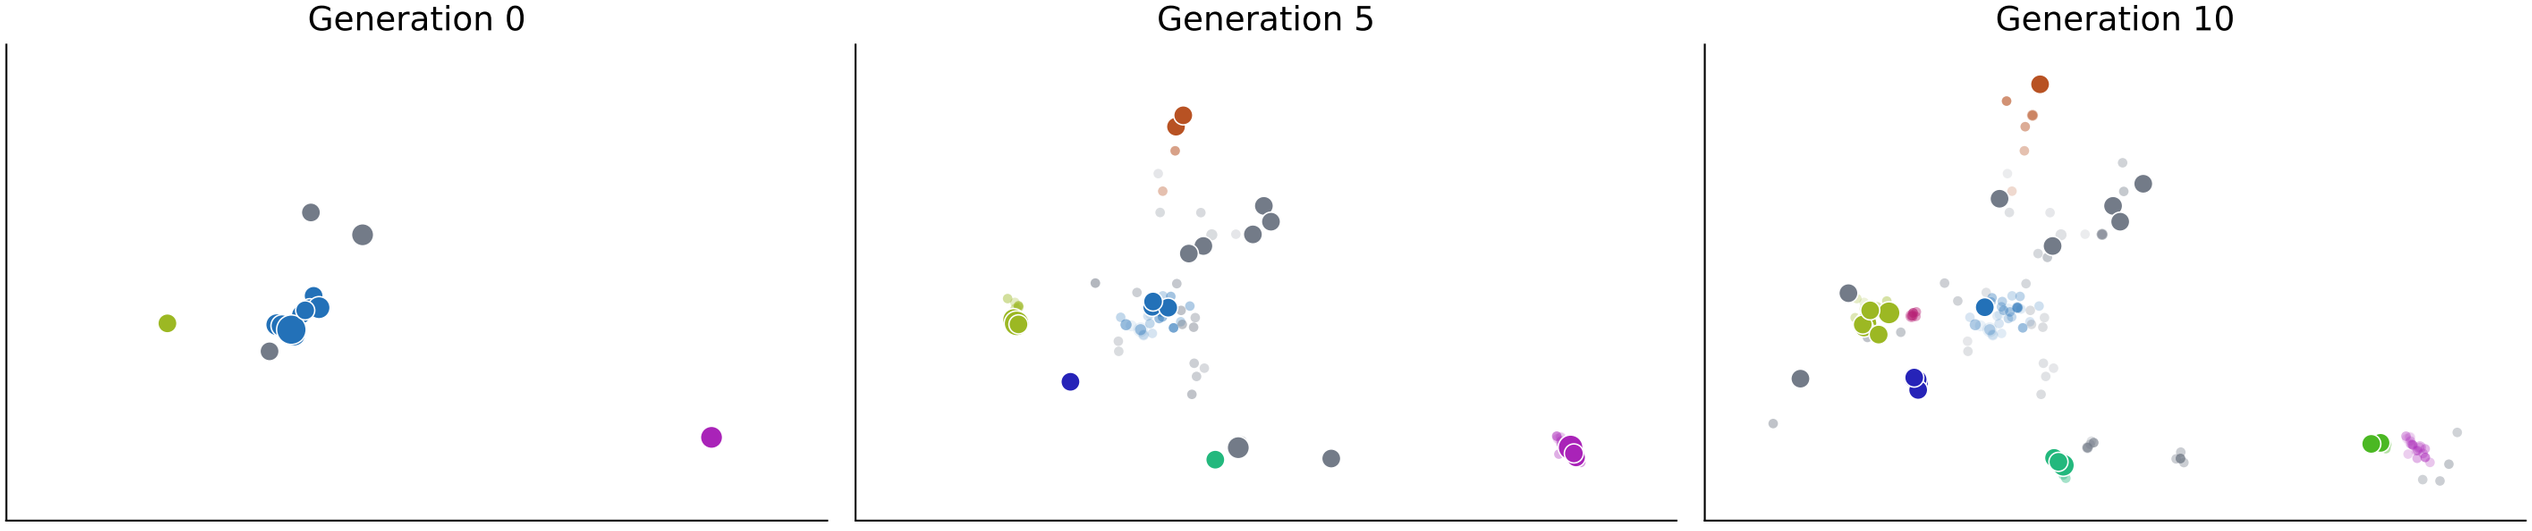

Fixed coordinates across all three panels; previous generations fade. Original-space HDBSCAN colors; projected distances have no cosine units.

# narrow_03 · representative behavior 18

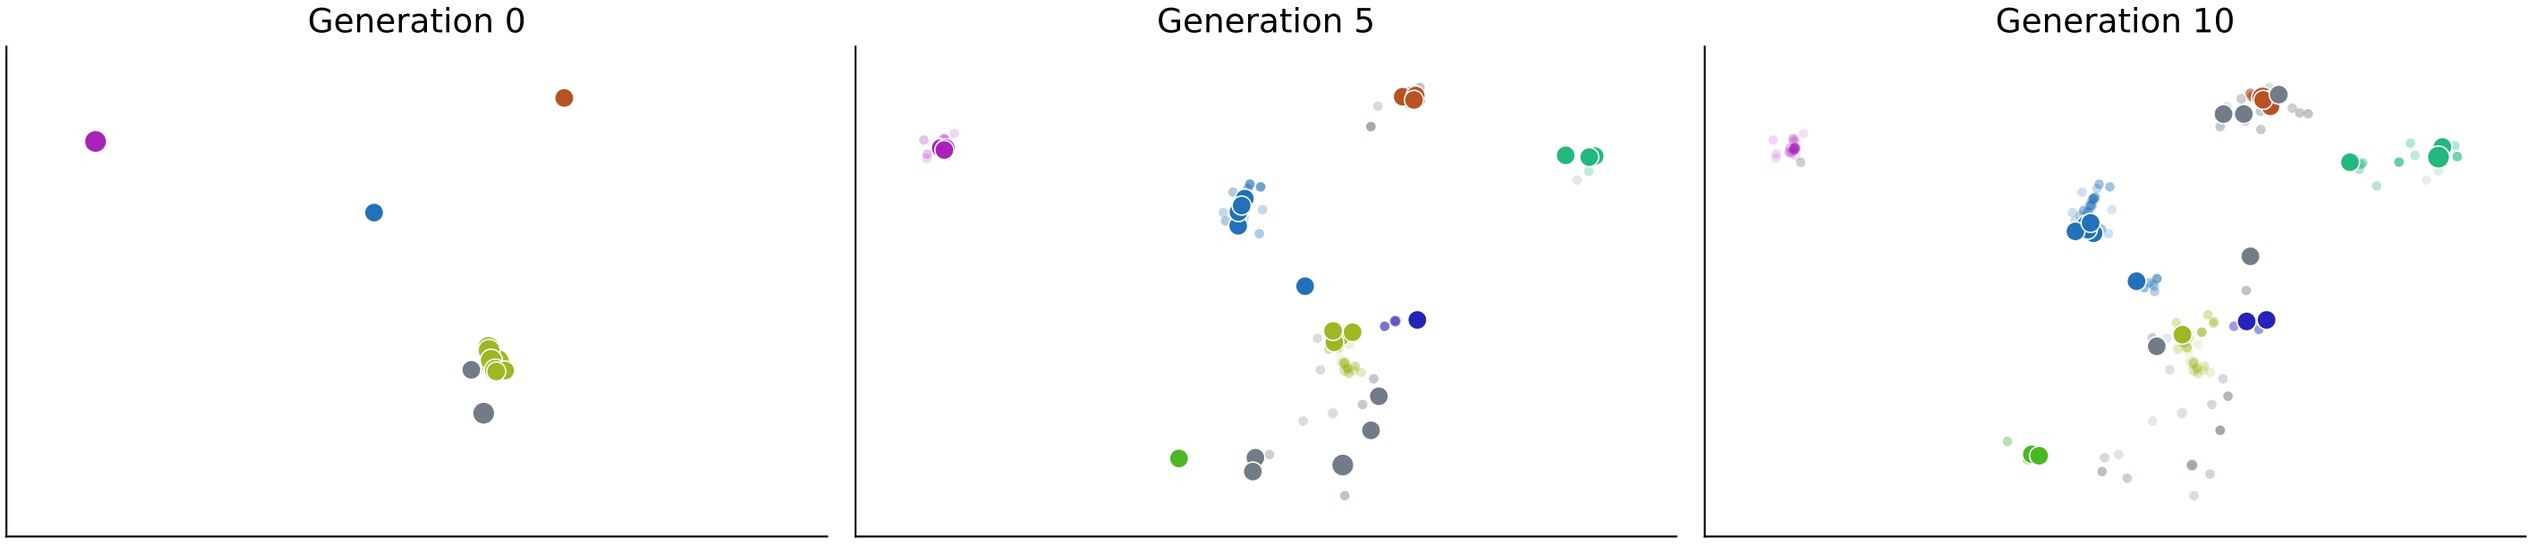

Fixed coordinates across all three panels; previous generations fade. Original-space HDBSCAN colors; projected distances have no cosine units.

# random_01 · representative behavior 24

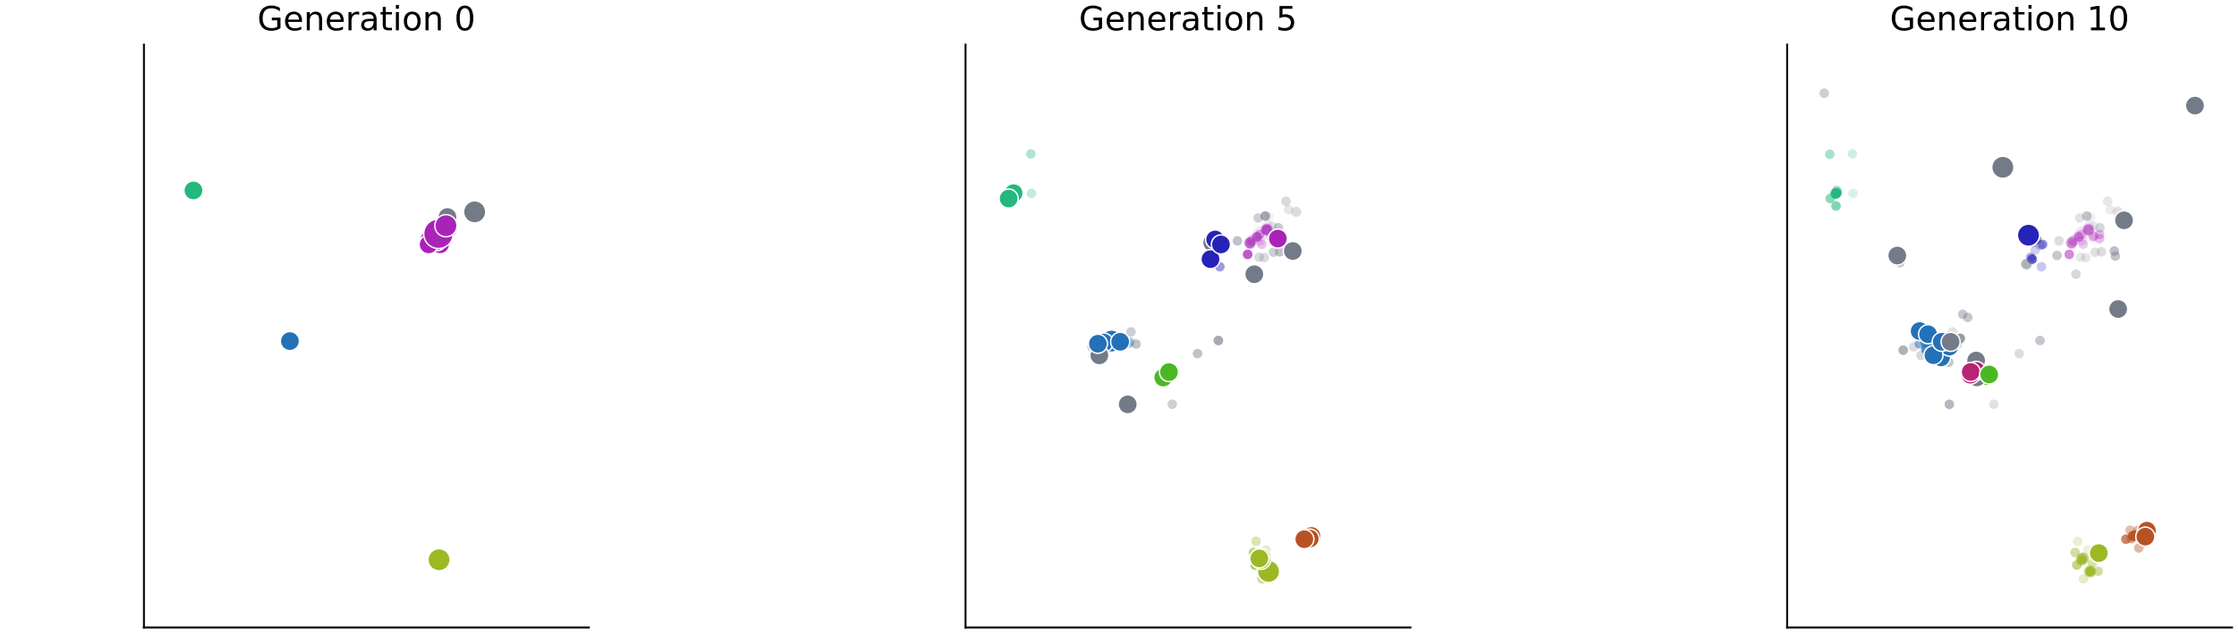

Fixed coordinates across all three panels; previous generations fade. Original-space HDBSCAN colors; projected distances have no cosine units.

# random_02 · representative behavior 26

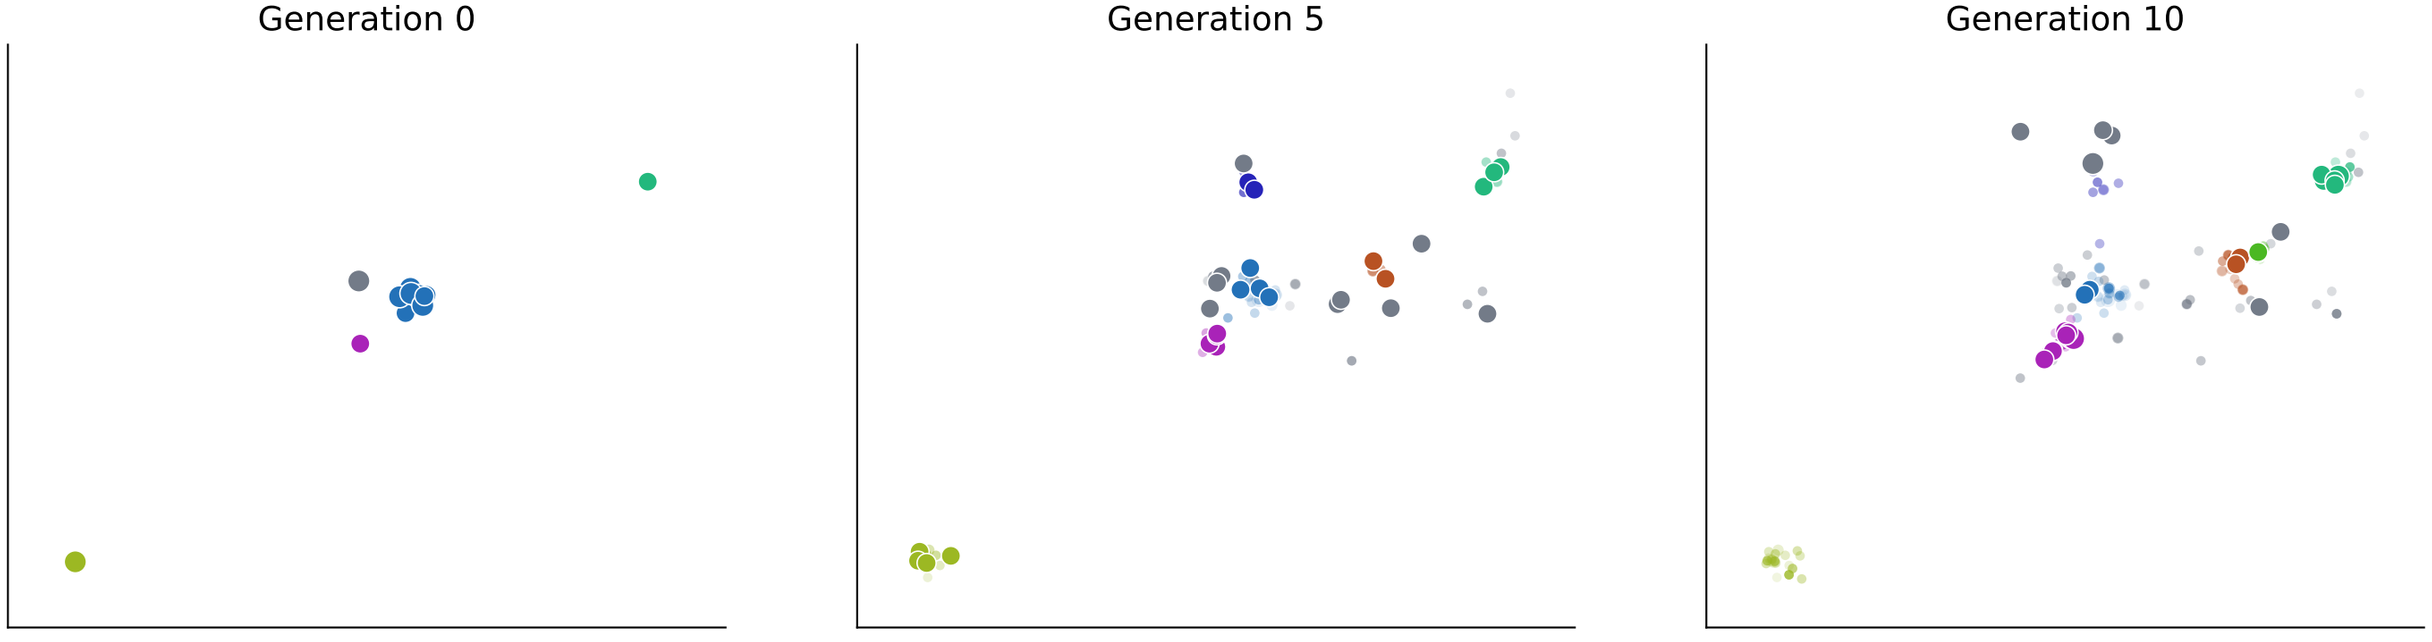

Fixed coordinates across all three panels; previous generations fade. Original-space HDBSCAN colors; projected distances have no cosine units.

# random_03 · representative behavior 03

Fixed coordinates across all three panels; previous generations fade. Original-space HDBSCAN colors; projected distances have no cosine units.

# random_04 · representative behavior 13

Fixed coordinates across all three panels; previous generations fade. Original-space HDBSCAN colors; projected distances have no cosine units.
